Everybody's for January.

"What is to be done about alien mmigration?" We are always asking ourselves this. There is an answer, and a practical one, and John L. Mathews has outlined it in the story of "Tontitown," in the January number of Everybody's Magazine. There is no preaching about it, no theorizing-1 tells of accomplishment, and as a story it is told with a lot of heart and con vincing simplicity.

It fiction the January number is strong. Joseph C. Lincoln contributes "The Seer and the Servant," one of his whimsical tales of the "Cape Cod folks;" Julia Kennett Colt has a virile hunting story with unusual characterization, entitled "Max Marshall's Wife;" "The Pill," by J. Storer Clouston, a humorous yaru about a baronet with aristocratic tendencies and a fortune made out of a wonderful "balm for the bihous:" "The Branded Man's Gift," by Alvah Milton Kerr and "The Madness of Willie Trent," When you are contemplating hav- by Justus Miles Forman, both re-

Cough Caution

Never, positively never poison your langs. If you cough—even from a simple cold only—you should always heal, so the, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It is strange how some things finally come about. For twenty years by Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label, it poisons are in your Cough Mixture." Good! Very good! Hereafter for this very reasonmothers, and others, should insist on having by. Shoop's latels—and none in the medicine, else it must by law be on the label. And it is not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no clance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding Never, positively never poison your lungs. If you that,
